

Reach

Artificial Lift Production Enhancement

Enhancing Multiphase Production

By significantly lowering wellhead flowing pressure, Reach's plug and play artificial lift solution increased oil and gas production by 300%, generating incremental annualized revenue of \$550,000.

ARTIFICIAL LIFT FROM SURFACE, POWERED BY HICOR.

	Without Reach	With Reach	Total Increase
Gas (MSCF)	713	2,388	1,675
Oil (BBL)	-	204	204
Annualized Revenue	\$55,640	\$714,584	\$554,996

Incremental production of over

\$550K per year

► Production on Plunger Lift

► Production on Impact Once Reach is Installed
